

## Heavy Duty 2600A Jump Starter

**Starts cars, trucks, RVs and boats without the need of a host vehicle**

### Features:

- Innovative, portable & lightweight design with a powerful high output sealed AGM battery, allowing for easy storage & no risk of leaking acid.
- Fully insulated 100% copper leads.
- Suitable to jump start a host of vehicles without the need of a second vehicle – **12 Volt Systems ONLY.**
- Recharge using supplied 240V 1600mA 3 stage smart charger.
- Built in extra bright, low current LED emergency light with on/off button.
- Built in low voltage or low capacity warning LED light flash when USB ON/OFF switch is on.
- Double 2.4A USB output socket provided.
- Additional 12V 15A output ACC socket provided on APS2600 for powering 12V accessories such as LED lights, testers or low powered appliances.

Part Number:	APS2600
Battery Type	Specially designed fast output AGM battery
Suitability	12 Volt 4, 6 & 8 cylinder petrol engines up to 6.0L (6000cc) & 8 cylinder diesel engines up to 4.8L (4800cc)
Battery Power (Ah)	44 Ah
Charging time from zero capacity using supplied charger (Hours)	15 to 18 hours (approximate with 1.6A charger)
Boost Cables (Continuous Current) (Amps)	400A@ 9V
Cable Size (AWG)	3
Boost Cables Length	78 cm
Heavy Duty Clamps (Amps)	900
Charger Type	1.6A Three Stage
USB output	2 x 5V/2.4A
12V Acc Output	1 x 12V/15A
LED emergency light	Yes
Charging status indicator	Yes, on the charger
Low voltage warning	Yes
